

Station Gallery Student Supply List

Artist Instructor	Program
Ivana Tovilla-Batiz	Introduction to Drawing

Note to Participants:

Hello everybody, I can't wait to create with you!

Drawing is the most natural and most widely used form of visual expression in the world — it's the basis for everything in art. Whether you're just starting out or looking to deepen your practice, this is a great place to begin!

Below is a short list of materials that will help you get the most out of our time together. Please bring the best you can afford within your own budget — what matters far more than the tools is showing up ready to explore. Looking forward to seeing you in class!

-Ivana
